Microdermabrasion is a non-invasive mechanical exfoliation treatment that removes the outermost layers revealing new healthy refreshed skin. A series of 4-6 treatments may be recommended to achieve desired results.

This soothing and nourishing treatment helps reduce redness and irritation for a hydrated glow. Designed for people with delicate skin who have a tendency for rosacea, redness or generally irritated skin.

Brightening Facial • \$75 (60 min)

Our Brightening polish with jojoba beads and natural skin lightening ingredients removes dead skin and debris while working towards evening out skin tone and fading dark spots. Add a Lactic Peel to the Brightening Facial for \$20. Helps repair dehydrated skin. Packed with antioxidants and anti-inflammatories, this peel will help your skin hold on to all the moisture the hydrating mask provides. Skin is left soft, dewy and fine lines are minimized.

Acne Facial • \$105 (60 min)
